

PHOTO EDITING

SERVICES:

CORRECTION

We can optimize the tonal qualities of an over-exposed (too light) photo to give it more punch, or soften the dark areas of an under-exposed (too dark) photo. We can also remove colour casts, and we can boost or soften colours if necessary

ALTERATION

This can be as simple as changing a few colours, or as dramatic as changing the whole lighting bias. We can also fix red-eye, remove spots and freckles, turn a colour photo into black and white - or even turn a black and white photo into colour!

RESTORATION

Just because a photo is faded, creased, torn, and covered in fingerprints and beer stains, doesn't mean it can't be restored - you just need to ask us!

MANIPULATION

We can vanish a forest; land a man on Mars; turn lead into gold; make a pig fly... in fact, if it can be done, we can do it!!!

EDITING PRICES:

There is no fixed pricing structure for photo editing. The editing needs of each individual photo are evaluated, then discussed with the client to agree upon a price.

SCANNING PRICES:

Not all of the following may necessarily be applicable:

- Scanning..... £0.50 per photo
- Removing dust artifacts from the scan..... £0.50 per photo
- Removing surface soiling marks from the scan..... price to be agreed (editing job)
- Colour matching the scan to the photo..... price to be agreed (editing job)

If scanned or edited photo/s are to be burned on a CD, there is a charge of £1 for this service.
